

Measuring Success

Baseline measures

What's the name of your group or club?

Measuring success is really important.

- 1) Record what children ate before starting the Full of Beans activities in the "Planting the seed" section.
- 2) Record what they ate after doing the Full of Beans activities in the "Look how much we've grown!" section.

We can then measure impact and see how much progress the children have made in becoming Full of Beans!
